The University Service Recognition Dinner, reported in the April issue of the Newsletter, was, we neglected to note, in honor of full-time faculty and staff. There are, of course, too many men and women to name who have devoted years of service to our students and our patients but who do not fall into this category. The School, the Hospital, and the Medical Center would not have achieved their present distinction without such loyal members, and named or unnamed, the Trustees and the Director are grateful to them all.
